

# BIG SAVINGS IN 90 DAYS.

Saving money for the federal government through smarter printing

## A CHANGE IS NEEDED

**\$13B**

Amount the federal government spends annually on printing

**85%**

Amount of total costs spent on items other than hardware (toner, maintenance)

**7200**

Number of pages the average federal employee prints in a year

**35%**

Average amount of print jobs thrown away the same day they are printed

## WITH GSA PRINTWISE CHANGES MADE

### SAVINGS CAN BE BIG!

The government can save \$330 million in operations costs using GSA PrintWise

A carbon footprint the size of removing an est. 50,000 vehicles off the road can be realized

An est. 550,000 trees a year can be saved by printing in duplex mode

## HOW TO MAKE THE CHANGE

Print Monochromatic

Print Double-Sided

Print in Draft Quality

Improve Energy Settings

Use Toner-Efficient Fonts

Remove Personal Printers

Stop Buying Personal Printers
