General Services Administration

- **Creation:** Established by President Truman on **July 1, 1949**, to streamline the administrative work of the federal government. GSA consolidated the National Archives and multiple supply and facility functions.

- **Original Mission:** To dispose of war surplus goods, manage and store government records, manage emergency preparedness, and stockpile strategic supplies for wartime.

- **An Evolving Mission:** Through its two largest offices – the [Public Buildings Service](#) and the [Federal Acquisition Service](#) - and various staff offices, GSA provides workspace to more than 1 million federal civilian workers, oversees more than 480 historic buildings, and facilitates the purchase of goods and services from quality commercial vendors.
The Federal Acquisition Service was established to provide an economical and efficient system for the procurement, supply, and eventual disposal of property. Intent was to eliminate duplication and maximize the government’s leverage.

On July 1, 1952, the Defense Cataloging and Standardization Act was approved, establishing a single catalog system leading to the National Supply System. Section 11 includes:

“The Administrator of General Services and the Secretary of Defense shall coordinate the cataloging and standardization activities of the General Services Administration and the Department of Defense so as to avoid unnecessary duplication.”
GSA -- FAS --- GSA Global Supply™
Working in partnership with DOD to furnish supplies

• In 1971, GSA and DoD entered into an agreement to eliminate avoidable overlap between their respective supply systems. This agreement divided the management of consumable items between GSA and the Defense Supply Agency (DSA, now Defense Logistics Agency). It assigned to GSA those Federal Supply Classes (FSCs), or commodities commonly used by federal agencies, which are commercially available and not predominantly of a military nature.

• GSA Global Supply™ is a part of the Federal Acquisition Service and is the Government to Government Supply source for commodities that GSA is assigned under the 1971 Agreement. GSA Global Supply™ is now a strategic partner with DoD on full-service supply solutions in CONUS and OCONUS environments.
FAR 8.002 Priorities for use of Government supply sources.

(a) Except as required by 8.003, or as otherwise provided by law, agencies shall satisfy requirements for supplies and services from or through the sources and publications listed below in descending order of priority—

i. Agency inventories
ii. Excess from other agencies
iii. Federal Prison Industries, Inc. (UNICOR)
iv. Supplies which are on the Procurement List maintained by the Committee for Purchase from People who are Blind or Severely Disabled
v. Wholesale supply sources, such as stock programs of the GSA (GSA Global Supply™), DLA or VA
GSA Global Supply™ – A Government to Government Wholesale Supply Source

- GSA Global Supply™ has already procured the most in-demand products on the government's behalf, meaning that your order is a simple requisition between agencies.
- Requisitions satisfy all Federal Acquisition Regulation (FAR) requirements, including trade agreement policies, socioeconomic goals, AbilityOne mandates, and executive orders.
- Place a requisition via DoD Activity Address Code, Civilian Activity Address Code, and/or Government Purchase Card.
- GSA is integrated with Department of Defense (DoD) financial systems.
GSA Global Supply™ – Integrated into the National Supply System

• GSA-managed National Stock Numbers are available directly through DoD, service-specific internal supply systems for requisitioning.
  • SARSS (Army)
  • SBSS (Air Force)
  • Navy-ERP (*Evolving Transition*)
  • GCSS (Marine Corps)
• As requisitions are placed via internal supply systems for GSA managed items, orders route through DLA Transaction Services and to GSA for fulfillment
• Status updates on your requisition route back through to internal supply systems.
• GSA transactions conform to specified format and performance criteria (i.e., packing, marking).
• Military regulations cite GSA policy & procedures as a part of DOD logistics guidance.

SUPPLY TRANSFORMATION
What is Supply Transformation?

GSA is transforming its wholesale and retail supply programs to offer customers lower prices and faster delivery, worldwide. This modernization process includes our acquisition, distribution, information technology and customer service functions.

**BENEFITS**

- **Savings**
  Incorporation of FSSI requisition channels to lower overall product costs

- **Better Service**
  Achieve faster delivery for wholesale customers and more attractive retail settings for customers worldwide

- **Transparency**
  Modernize IT infrastructure to lower costs and enhance GSA and customer visibility

- **DoD Compliance**
  Ensure GSA's timely integration with Defense Logistics Management
Elements of Supply Transformation - Wholesale

- Transitioned to commercial partners for storage and shipping (2014)
- Debuted FSSI for Office Supplies (FY 16)
- FY 17 expansion to MRO and JanSan products
- Standardizes language on marking, labels, delivery times and electronic interaction with GSA for greater visibility
- Goals: faster delivery and lower customer cost
Elements of Supply Transformation - IT Enhancements

- Order Management Service (OMS) is an IBM, cloud-based system
  - Incremental releases planned
- OMS replaces key functions of certain legacy systems and facilitates the shift to vendor partner delivery
  - All purchase orders issued for GGS products will flow through OMS
- Goals: modernize IT, increase visibility to GSA users and customers, lower IT costs
What Changes for GSA Global Supply™ Customers

• Likely faster delivery as new contract vehicles standardize requirements across large segments of the product line
• Lower cost as we leverage strategic sourcing and market pressure to get competitive prices
• Simplified data collection and enhanced transparency to better manage spending and measure savings
What Does Not Change for GSA Global Supply™ Customers

• Simple requisitions for GSA items – no need to comparison shop or document 3 sources
• Ordering options: online, phone, fax, FEDSTRIP/MILSTRIP
• Customer service – (800) 488-3111 for any issue
• Special Order support for large, complex items

Key Elements of GSA Retail Store Concept

➢ Supply chain integration of both the customer-facing and back-end processes
➢ Customized inventory by location. Mission critical items can be onsite location with non-essential items in a web environment.
➢ Vendors managed by GSA: Tools / Hardware, Office Supplies, Automotive, IT Products, Facilities Maintenance, Safety, Cleaning and Janitorial
➢ GSA oversight of the payment process (e.g. order status, purchase order, billing data, vendor /agency payments)
➢ Management reports for spend analysis
➢ USMC: Flagship customer, but many others across military services
